

Summing up Month 1.

What you would have achieved at the end of Month 1.

Know...

- When to use म् and when to use an अनुस्वार ।
- How to correctly write a word with अनुनासिक व्यञ्जन s.
- How to correctly pronounce म् or an अनुस्वार ending word depending on what letter follows it.
- That nouns and pronouns may be masculine, feminine or neuter.
- That nouns, pronouns and verbs can be singular, dual or plural.
- That all "same ending" masculine words are declined alike.
- Ditto for same ending feminine words. Ditto neuter.
- Suffixes have to be added to a verb root form to match the subject.
- That nouns or pronouns have to be attached to a preposition before they can be used.
- That the subject is picked from the प्रथमा विभक्ति।
- That the object is picked from the द्वितीया विभक्ति ।
- That Sanskrit verbs are so familiar simply because we use them everyday when speaking our own mother tongue.
- That wherever is the place that one is going to, the place falls in the द्वितीया विभक्ति । That is, it ends in a म् or an अनुस्वार ।
- That अव्यय s are words that do not change their form.

And that's tremendous progress, if i do say so myself!
